Ms. Susan Nachtrieb
City of Westminster
4800 West 92nd Avenue
Westminster, Colorado 80030

Dear Ms. Nachtrieb:

The purpose of this letter is to formally request two copies of the report regarding nutrient loading to Standley Lake, which we understand has been recently completed for the City of Westminster by the U.S. Geological Survey and is now available. We are requesting this report for two reasons. First, we seek to maintain the most current and complete information available regarding surface water quality in the vicinity of Rocky Flats. Second, we wish to examine the information in the report as regards its implications for the proposed phosphorus standards for Standley Lake and the surrounding watershed. Rocky Flats is in the process of determining an appropriate role and position for the hearings on these standards, and believes that the requested reports will provide a needed technical basis for us to do so.

Please send the requested copies to:

Mr. John Rampe
Environmental Monitoring Branch
U.S. Department of Energy
Rocky Flats Office
P.O. Box 928
Golden, Colorado 80402-0928

Thank you for your assistance in this matter. If you have any questions regarding our request, please contact either me or John Rampe of my staff at 966-6246.

Sincerely,

Mark E. Van Der Puy, Chief
Environmental Monitoring Branch
